Proceedings of the European Conference on

Desalination and the Environment Water Shortage

28–31 May, Lemesos (Limassol), Cyprus

Contents

Desalination Volume 138

Keynote speech

Desalination and the environment (abstract)
N.X. Tsiourtis (Nicosia, Cyprus) 1

Session A-1. Water scarcity

Water management under drought conditions
C.N. Charalambous (Lemesos, Cyprus) 3

How water scarcity will effect the growth in desalination market in the coming 25 years
I. Bremere, M. Kennedy (Delft), A. Stikker (Amsterdam), J.C. Schippers (Delft–Nieuwegein, The Netherlands) 7

Existing and the future planned desalination facilities in Gaza Strip of Palestine and their socio-economic and environmental impact
S.A. Assaf (Ramallah, Palestinian Authority) 17

Session A-2. Water scarcity

Brackish, sea and waste water desalination as sustainable water sources. Technical-economical and ecological answers based on membrane technology
J.A. Redondo (Rheinmünster, Germany) 29

Maximasing the benefits of desalination
C.N. Charalambos (Lemesos, Cyprus), M. Setford (Kent, UK) 41

Desalination process applications in Libya
A.A. Abufayed, M.K.A. El-Ghuel (Tripoli, Libya) 47

Case study — wastewater reuse in Limassol as an alternative water source
I. Papaiacovou (Limassol, Cyprus) 55

Session B-1. Wastewater

Removal and destruction of toxic micropolluting organic compounds from wastewaters by a combined NF and SCWO process
G. Del Re, G. Di Giacomo (L'Aquila, Italy) 61

Spent process water desalination and organic removal by membranes for water reuse in the food industry
V. Mavrov, H. Chmiel, E. Bélières (Saarbrücken, Germany) 65

Treatment and reuse of textile effluents based on a new ultrafiltration and other membrane technologies
M. Marcucci (Prato), G. Nosenzo (Parre), G. Capannelli (Genoa), I. Ciabatti, D. Corrieri, G. Ciardelli (Prato, Italy) 75

PII: S0011-9164(01)00347-2

Session B-2. Wastewater and reuse

Membranes as pretreatment to desalination in wastewater reuse. Operating experience in the municipal and industrial sectors
B. Durham (Wirksworth, UK), M.M. Bourbigot (Paris, France), T. Pankratz (Saint-Maurice, France) 83

Reliable water supply by reusing wastewater after membrane treatment (abstract)
J. Schaefer (Port Washington, NY, USA) 91

Water and materials recovery from fertilizer industry acidic effluents by membrane processes
A.J. Karabelas, S.G. Yiantsios, Z. Metaxiotou, N. Andritos, A. Akiskalos, G. Vlachopoulos, S. Stavroulias (Thessaloniki, Greece) 93

Session C-1. Renewable energy

Experimental investigation of a solar still coupled with solar collectors
K. Voropoulos, E. Mathioulakis, V. Belessiotis (Athens, Greece) 103

Multi-effect-still for hybrid solar/fossil desalination of sea and brackish water
F. Gräter, M. Dürrbeck, J. Rheinländer (Stuttgart, Germany) 111

Utilization of new technique to improve the efficiency of horizontal solar desalination still
N.H.A. Rahim (Isa Town, Bahrain) 121

Session C-2. Renewable energy

A photovoltaic powered system for water desalination
M.S. Mohsen, J.O. Jaber (Zarqa, Jordan) 129

Effect of fuel cost on the price of desalinated water. A case for renewables
S.A. Kalogirou (Nicosia, Cyprus) 137

Modeling and performance analysis of a solar desalination unit with double-glass cover cooling (abstract)
Y.H. Zurigat, M.K. Abu-Arabi (Muscat, Oman) 145

Brackish water desalination with heat recovery
B. Bouchekima(Ouargla, Algeria), B. Gros (Toulouse, France), R. Ouahes, M. Diboun (El Alia, Algeria) 147

Session A-3. Resource management and environment

Desalination of marginal water: environmental and cost impacts
Part 1. The effect on long range regional development
Part 2. A case study of desalinated seawater vs. local desalination of marginal brackish water
P. Glueckstern, N. Nadav, M. Priel (Tel-Aviv, Israel) 157

Desalination and water resource management in Kuwait (abstract, full paper see on page 385)
M.F. Hamoda (Safat, Kuwait) 165

Developing environmentally acceptable desalination projects
P. Mahi (Brighton, UK) 167

Session A-4. Developments in desalination

Increase in water production in UAE
C. Sommariva (Brighton, UK), V.S.N. Syambabu (Abu Dhabi, UAE) 173

Deployment and field tests of a submarine reverse osmosis desalination prototype plant (RODSS) (abstract)
P. Pacenti (München, Germany), M. Reali, N. Brambilla, A. Elli (Milan, Italy), P. Helm, R. Janssen (München, Germany), D. Chiaramonti, S. Gärtner (Florence, Italy) 181

On electric power and desalted water production in Kuwait
M.A. Darwish (Safat, Kuwait) 183

Session B-3. Energy saving in seawater reverse osmosis

Operation and reliability of very high-recovery seawater desalination technologies by brine conversion two stage RO desalination system
M. Kurihara (Otsu Shiga), H. Yamamura, T. Nakanishi, S. Jinno (Chiba, Japan) 191

A twelve-year history of large scale application of work exchanger energy recovery technology
W.T. Andrews, D.S. Laker (Hamilton, Bermuda) 201

Las Palmas III — the success story of brine staging
J.A. Reverter, S. Talo (Barcelona), J. Alday (Las Palmas, Gran Canaria, Spain) 207

Session B-4. Energy saving in seawater reverse osmosis

The high pressure pump train on reverse osmosis plants. Experience and current trends
A. Martinho (Coslada, Spain) 219
Optimising energy consumption in SWRO systems with brine concentrators
A. Gründisch, B.P. Schneider (Egliswil, Switzerland) 223
Lanzarote IV, a new concept for two-pass SWRO at low O&M cost using the new high flow FilmTec SW30-380
J.A. Redondo (Rheinmünster, Germany) 231

Session C-3. Corrosion and scaling control

Controlling the corrosiveness of blended waters
A. Plottu-Pecheux, C. Democrate, B. Houssais, D. Gatel, J. Cavard (Paris, France) 237
First desalination plant in Cyprus — product water aggresivity and corrosion control
V. Siamarou Marangou, K. Savvides (Nicosia, Cyprus) 251
The influence of concentration polarisation on the risk of scaling in spiral wound membrane applications
C.A.C. van de Lisdonk (Nieuwegein), B.M. Rietman (Zwolle), S.G.J. Heijman, G.R. Sterk (Nieuwegein), J.C. Schippers (Nieuwegein–Delft, The Netherlands) 259

Session C-4. Membrane fouling I

Studies on interactions between membranes (RO and NF) and pollutants (SiO_2, NO_3^-, Mn^{++} and humic acid) in water
R. Molinari, P. Argurio, L. Romeo (Rende, Italy) 271
Effect of hydrocarbon contaminants on the performance of RO membranes
T. Hodgkiess (Glasgow, Scotland), W.T. Hanbury (Argyll, Scotland), G.B. Law (Singapore), T.Y. Al-Ghasham (Dhahran, Saudi Arabia) 283
Electric fields applied in the ultrafiltration process (abstract)
N. Mameri (Algiers), S.M. Oussedik, A. Khelifa (Blida), D. Belhocine, H. Ghrib, H. Lounici (Algiers, Algeria) 291

Session A-5. Seawater reverse osmosis. Design

Larnaka Desalination Plant
B. Liberman (Ra'anana, Israel) 293
Process control of Larnaca 51,000 m^3/d seawater RO plant (abstract)
M. Faigon (Ra'anana, Israel) 297
Optimization of seawater RO systems design
M. Wilf, K. Klinko (Oceanside, CA, USA) 299
Preliminary investigation into the economical feasibility of unsteady incompressible duct flow (waterhammer) to create hydrostatic pressure for seawater desalination using reverse osmosis
R.A. Sawyer, D.F. Maratos (Manchester, UK) 307

Session A-6. Distillation and reverse osmosis

Rehabilitation of water production facilities of the Ministry of Electricity and Water – State of Bahrain
A.G. Khalaf, M.A. Redha (Manama, Bahrain) 319
Hybrid desalting systems for avoiding water shortage in Spain
J. Uche, L. Serra, A. Valero (Zaragoza, Spain) 329
Some aspects of a design study of a hybrid MSF-RO plant
Z.K. Al-Bahri (Oman), W.T. Hanbury (Argyll, Scotland), T. Hodgkiess (Glasgow, Scotland) 335
Optimal MSF plant design
S. Mussati, P. Aguirre, N.J. Scenna (Santa Fe, Argentina) 341
A dynamic simulator for MSF plants
E.E. Tarifa (San Salvador de Jujuy), N.J. Scenna (Santa Fe, Argentina) 349

Session B-5. Corrosion

Corrosion of condenser tube materials in distilled water
D. Mantzavinos, T. Hodgkiess, S.L.C. Lai (Glasgow, Scotalnd) 365

Corrosion and scaling problems present in some desalination plants in Abu Dhabi
M. El-Dahshan (Abu Dhabi, UAE) 371
Performance of reinforced thermosetting resin pipe systems in desalination application: a long-term solution to corrosion — the Arabian Gulf example
Z. Salibi (Beirut, Lebanon) 379
Desalination and water resource management in Kuwait
M.F. Hamoda (Safat, Kuwait) 385

Author Index 395

Desalination Volume 139

Session B-6. Energy saving and renewable energy

Utilization of waste heat from flue gases up-stream gas scrubbing system
J. Cohen, I. Janovich, A. Muginstein (Haifa, Israel) 1
Saving of energy and cost in seawater desalination with speed controlled pumps
D.-H. Hellmann (Kaiserslautern), H. Rosenberg (Frankenthal), E.F. Tusel (Homburg/Saar, Germany) 7
Potential of solar desalination in Israel and its close vicinity
D. Sagie (Beer-Sheva), E. Feinerman, E. Aharoni (Rehovot, Israel) 21
New approach to solar desalination for small and medium size use in remote areas
H. Kunze (Augsburg, Germany) 35

Session C-5. Membrane fouling II

Silica fouling and cleaning of reverse osmosis membranes
T. Koo, J. Lee, R. Sheikholeslami (Sydney, Australia) 43
Experience in reverse osmosis pretreatment
N.P. Isaias (Dhahran, Saudi Arabia) 57
Diagnosis, prediction and prevention of biofouling of NF and RO membranes
J.S. Vrouwenvelder, D. van der Kooij (Nieuwegein, The Netherlands) 65

Session C-6. Scaling in reverse osmosis

Inception of $CaSO_4$ scaling on RO membranes at various water recovery levels
D. Hasson, A. Drak, R. Semiat (Haifa, Israel) 73
Pretreatment and the effect of cations and anions on prevention of silica fouling
R. Sheikholeslami (Sydney, Australia), I.S. Al-Mutaz (Riyadh, Saudi Arabia), T. Koo, A. Young (Sydney, Australia) 83
Water type and guidelines for RO system design
S. El-Manharawy, A. Hafez (Cairo, Egypt) 97

Session A-7. Seawater reverse osmosis operation

Operating experience of the Dhekelia seawater desalination plant
O.V. Sallangos, E. Kantilaftis (Nicosia, Cyprus) 115
Pilot plant study at Dhekelia seawater desalination plant
O. Sallangos (Nicosia, Cyprus), P. Moss (Stafford, UK) 125
Performance characteristics of a cyclically operated seawater desalination plant in Tajoura, Libya (abstract)
A.A. Abufayed (Tripoli, Libya) 131

Session A-8. Heading water shortage

Water shortage and renewable energies (RE) desalination — possible technological applications
V. Belessiotis, E. Delyannis (Athens, Greece) 133
Seawater desalination projects. The Cyprus experience
N.X. Tsiourtis (Nicosia, Cyprus) 139
Aqualyng™ — A new system for SWRO with pressure recuperation
L. Drabløs (Mogan, Gran Canaria, Spain) 149
